Dear Yonkers Partners In Education,

I am really thankful for your program. Your program helped me read now I'm in the highest group in my class and reader. One of my favorite books I read from your program is Martin Luther King Jr. Biography. That was my favorite book because I think either 2 weeks or 3 weeks, later we did an report about Martin Luther King Jr. and mine was the longest! I read that book because I like black history books and biographies. I only have one request I would really appreciate if you had more biographies. Well thanks for all the hard work so we can read and learn.
